

Spreading the Fire

Greetings in the Name of the Lord,

May 2009

I trust the majority of you receiving this newsletter are enjoying warmer spring-time weather. For me, the seasons are reversed, so the weather is starting to get colder and we're entering into autumn. I don't mind the relief from the intense heat, except for the fact that climate-controlled homes are a luxury here!

This past month I saw my friend Jason, who came down from Canada to marry his Peruvian fiancé Rocío. It will also be good to have a close familiar friend from back home down here for the next year. For their ceremony several people from my home fellowship came down including Stephen Best, my pastor.

It was a huge joy to have Stephen share the Word with our fellowship, *Centro de Fuego*. While they were here we went out to Huachipa, nearby to have him share with the pastors and leaders who meet for Bible school we're involved with. We go out there once a month, teach or preach something in person to supplement the DVDs they normally watch. This time we had my pastor from Canada preach and we saw the fire of God fall! There was such a desperation and a hunger for the presence of God. It was really exciting to see Him move in our midst. There was much weeping and crying out for Him. **It makes us all the more excited to see what God will do this August at our conference.**

We've also met with a Christian publishing company down here about publishing 7 Spanish titles of Derek Prince's that we have the rights to. It seems like it will work out that they will begin by producing 1000 copies of each of the books and give us 100 to give away. **The publisher's husband is also the director of a very large radio station in Lima, called *Radio Pacifico*. In order to promote the books, he is interested in helping us put 15 minute Derek Prince teachings on the air for a deal.**

The teachings will help sell the books and put the deliverance teaching ministry out there--a badly needed ministry over here in Peru. We also have big aspirations to duplicate this model into the other Spanish speaking

countries in Latin America. Who knows where this could go from here? So please keep it in prayer. Radio is a much more effective way to reach people here than I'm used to because of how readily many people listen to the radios in this culture as opposed to mp3 players and iPods. **If these teachings go on the air, in time many people could be made aware of the conference as well.**

Other praise-worthy things to mention: we've seen our first commitment to Christ at Centro de Fuego last week! The mother of some children that go to the same school as the Smith's kids came out and before leaving received salvation. Shortly after this newsletter goes out, we're doing street evangelism before service (we meet at 3pm in the afternoons) and in June we're helping put on a crusade in Huachipa with the pastor who facilitates the Bible school there. **Pray for God to really touch people and for more people to be born again into the Kingdom of God. We could use protection in the spiritual realm, as many witch doctors come out and oppose the work being done up there.**

I'm attempting a new program to supplement my support with an online store called "ServeNation". For every dollar spent, **up to 8%** will be given to me through *FIRE International*. **PURCHASING WITH PURPOSE** allows you to support me without changing your normal spending habits.

With dozens of gift card options, those of you interested in supporting me but so far unable to, can still contribute while shopping at your favorite places. The direct link for my store is <http://www.servenation.com/cards/5211>, but if you visit any of my blogs or websites (such as www.fireonyourhead.org) you can find button links that take you to my online store. All gift cards are valid at stores throughout the USA.

Thank you again for your prayer, support and the encouragement you are in my life.

Blessings and fire on your head,

Steve
